Good on the whole. Often very good especially Geography -
Narrative growing, stronger but still too slow and incomplete.

Much very good work - her English shows real promise. She has a strong memory & can also express herself in her own words looking quite fresh.

Leonora's work is slender & narrative fuller. Latin has improved very much & is still below form standard.

Good on the whole, the work is more makes good use of language.

Very good. The painting shows more promise. History poor.

Generally good work. Her own satisfactory work. J. M.

There are two very good variations, which can be put into the
 writing. The whole matter is done. There is no need to do it.
 No. 1. The whole matter is done. There is no need to do it.

When he gets going he wastes very well and should save some things.
 all would. Walter knows far more than his own share.

There is much to be learned from her. She shows an educated mind in the best sense. Her work is always intelligent but ~~finishes~~ careless. This is her last letter at present. Present =

He has very little to narrate yet, the little is to the point though. He has done some work in 1st. Term in IB. Reading made very good progress. He can often narrate well. Nature very good, but writing is a difficulty. About 11.

No Examination taken among the children.

He shows interest in history and will grow stronger in the next. John would do very good work if he would be less slow in writing.

Nature interests him and there are several other good narrations. Can narrate well now. Reading improving.

A good try. he shows interest. This reading is improving though exam was poor. He has also worked at time for 3 weeks. This good work in handwriting.

Her writing has made a good advance. Her narration is beginning to be better. She is beginning to make the effort. Reading has progressed well this term. Bible seems to be given.

She has made a good try certainly has an idea of narration by expressing herself in paint. Her writing is beginning to narrate quite well in school though at times has nothing to say. Her handwriting is beginning to be better.

She can copy words in paint. Narration has not gone far yet. True has been about a great deal.

Painting is very good. Navigation is rather poor work.

Much good & interested work. V.K.

Steady & intelligent. No Physiology paper as extra time is being given to Botany in preparation for C.S.C. I.M.

The ground has been covered well but reports are sometimes rather meagre - e.g. Science. Put up in depth in Maths. Enfl has found form II work interesting. Special language & Botany examinations marked strictly with a view to C.S.C. I.M. 2.

The ground has been covered well but reports are sometimes meagre. e.g. Science. Has found form II work interesting. Special Botany & language occurs marked strictly with a view to C.S.C. I.M.

A good paper often very good, esp. drawing - E.H. Has achieved much this term - satisfactory all round except for nature work which she has neglected. will prepare for C.S.C. next yr. Extra time given to Biology in Geog. Period. Since only one geography question attempted. How she does come out of it.

The shows much intelligent interest constantly & narrates well. Her work subject, has improved this term. Data only a few.

much very good & intelligent. Variation marked by nothing, nothing really hard work.

Good arithmetic history disappointing.

He has made a good one and will grow stronger.
Miguel has done a good one. Miguel is still about the same as 2 weeks ago.

Very rarely and Nature both interest him with great effect.
Miguel's work is remaining stronger. All round.

He has made a good try but navigation is not very full yet.
Night narrations are becoming longer. Number & all reading are very good.

A few papers
Night's work. He shows interest in these. He seems to be working on his own. He is not yet at the point of being able to write on his own.

There are other good reports, but many are short - e.g. Nature. She writing needs care. at time in P.U.S. Math. are a struggling math - groups to conclusions with thinking other work satisfactory.

This paper, structure good. Painting done in water. Special 62. Special 30. Special 25.

Not very strong yet. Spelling much better than writing.

Weak as a rule, with, seemingly, a rather off hand attack. V.K. work too erratic to be really satisfactory. I.M.

Sometimes good but then in weak places. E.K.

Daphne does not work in hardest though she has been improvement this term. I.M.

Often good but sometimes confused. E.K.

Work shows considerable improvement but more continuous effort still required. - I.M.

Good conscientious work. often very good. E.K. Has found some subjects in her first term in Form II difficult, especially scripture. Regional Geog. studied - extra time given to Biology & Botany with a view to C.S.C. I.M.

Generally good with some weak places. E.K. Work is improving but still does not work hard enough. I.M.

Work is still not what it should be. It varies too much - sometimes very good showing interest & knowledge, but sometimes superficial & disappointing. - I.M.
